Bootstrap

Python

SQL

Data structures

C

DBMS

Adobe Premiere Pro

PROJECTS

Restaurant Website

- In this project I build a website from scratch keeping in mind the owner needs, choices and requirements.

Whiteboard

- whiteboard empowers students, teachers and organizations to stay connected in this virtual era. We created a whiteboard using html CSS and mainly JavaScript loaded with great functionalities like different pen sizes, different colors, simple Do and Undo functions and sticky Notepad for typing.

COURSES AND CERTIFICATIONS

HTML, CSS and JavaScript for Web Developers by John Hopkins University

In this course I learnt the basic tools that every web page coder needs to know starting from the ground up by learning how to implement modern web pages with HTML and CSS and then moving to the incredibly powerful language of the web: JavaScript.

Programming for everybody (Getting started with Python)

In this course I learnt the basics of how one constructs a program from a series of simple instructions in python.

Devfest India

Participated in DevFest India organised by GDG communities in India on october 16-18, 2020.

VOLUNTEER EXPERIENCE

RISE ALL FOUNDATION: Youth Run organization which target the government schools of the villages to enhance their system of education.

As a student teaching assistant I created teaching videos using Adobe Premiere Pro for the unprivileged children aiming towards the growth of local area around the college.

Developer Students Club-IGDTUW

Student volunteer at developer students club-a non-profit developer group powered by Google developers to learn, share, connect and develop skills. As a volunteer I create content and publicize all the events happening under DSC.
